Proposing the Frameworkmodel for Integrative Development Processes towards Sustainability as Evaluation & Planning Tool

Clemens Mader,
RCE Graz-Styria, University of Graz
Austria
Content

- Sustainability Processes
- Evaluation of RCEs
- Process Development
- Principles for Integrative Development Processes
- Evaluation of RCE Graz-Styria
- Discussion
Sustainable Development & Processes towards Sustainability

- Complex
- Interdisciplinary
- Uncertain

Processes towards sustainability start with a vision
Evaluation of RCEs

- Short and simple to be attractive
- Reflect on actions taken
- Benchmark
- Guide way for improvement
- Be flexible for improvement
Process Development

- Vision & Leadership
- Ask people to help you with vision
- people become part of your vision
- Learn from your process and educate people about your vision content
- Investigate
Principles for Integrative Processes

- Leadership & Vision
  - Value system
  - Action goals
- Social Networks
  - RCE Partners
  - Cooperation between RCEs
  - Advisory Structure
- Participation
  - Involvement of society in actions
- Education & Learning
  - ESD Actions
  - Learning by actions and exchange
- Research Integration
  - Research projects
Evaluation of RCEs

To be action based, evaluation of RCEs could be connected to Annual Report, demonstrating Leadership structures, Network partners, Participation of society, Education & Learning programs as well as Research Actions.
Further Steps

- Testing by RCE Graz- Styria
- Handbook for Integrative Principles Evaluation
- Workshop at European RCE Meeting
- Testing with voluntary RCEs
- International RCE Meeting 2010 – presenting results and experiences
Thanks for your Attention & Discussion
