

7th African Regional Centres of Expertise (RCE) on Education for Sustainable Development (ESD) Conference

Cresta GolfView Hotel, Lusaka, Zambia
2- 4 August, 2017
(Tentative Programme)

Theme: Exploring Capacity to Influence an Integrated and Coherent Approach to Sustainable Development in Africa

Sunrise: Lake Bangweulu, Samfya, Zambia

CONFERENCE OVERVIEW

Background

As countries of the world transition from the Millennium Development Goals (MDGs) to the 2030 Agenda for Sustainable Development, it has become imperative to take stock of the progress that African countries are making. This concern arises from the 2016 UNDP Report that an analysis of the performance of African countries on MDGs revealed uneven performance (and even performance reversal). The concerns raise questions about the sustainability of the progress achieved by African countries and strengthen the call for structural transformation and a sustainable approach to development. This underscores the importance of setting milestones that spell out initiatives and strategic actions for achieving sustainable development among African countries, such as innovation, resource mobilization and action to deliver the sustainable development goals (SDGs).

The conference of Regional Centres of Expertise provides a forum through which experts from across the African continent can meet, align, coordinate, innovate, and report on various education for sustainable development initiatives they are working on to implement Agenda 2030. Experts from African RCEs have been meeting annually to deliberate and reflect on this fundamental role. Two years ago participants who met at the 5th African RCE Conference held in Entebbe, Uganda reflected on successes, challenges and opportunities of implementing ESD within post 2015 perspective. Last year, delegates to the 6th African RCE Conference held in Nairobi, Kenya focused on developing capacities of African RCEs for the implementation of the Global Action Programme on ESD and the achievement of Sustainable Development Goals. This, 7th African RCE Lusaka, Conference will focus on spelling out milestones that the African RCE networks need to follow to meet the sustainable development agenda through education. It explores ways of strengthening African RCEs as multi-stakeholder partnerships for scaling up innovation, resources and action to deliver the SDGs in local and regional contexts.

The Regional Centres of Expertise (RCEs) global network provides useful opportunities for implementing education for sustainable development (ESD) as a mechanism for achieving sustainable development goals (SDGs). Education is at the heart of the 2030 Agenda for Sustainable Development and essential for the success of all SDGs. Recognizing the important role of education, the 2030 Agenda for Sustainable Development highlights education as a stand-alone goal (SDG 4) and also includes targets on education under several other SDGs, notably those on health; growth and employment; sustainable consumption and production; and climate change. In fact, education can accelerate progress towards the achievement of all of the SDGs and therefore should be part of the strategies to achieve each of them. The renewed education agenda encapsulated in Goal 4 is comprehensive, holistic, ambitious, inspirational and universal, and inspired by a vision of education that transforms the lives of individuals, communities and societies, leaving no one behind.

Participating Countries

Zambia, Malawi, Zimbabwe, South Africa, Kenya, Uganda, Nigeria, Cameroon, Tanzania, Japan and Lesotho.

Specific Objectives

The specific objectives of the conference are to:

1. Mobilize national, regional and global efforts that aim at achieving effective and inclusive partnerships in African RCEs
2. Show case the work of African RCE network on Education for Sustainable Development
3. Establish a sector-wide and multiple sector approach for assessing and reporting RCE activities

4. Share ESD opportunities and challenges associated with implementation of the sustainable development goals.
5. Discuss the roles adults and youths can play in RCE activities
6. Review action plan for African RCEs.

Expected Outcomes

1. Effective coordination and common agenda for implementing RCE activities
2. Increased capacities on assessing and reporting RCE activities
3. Shared strategies on implementing SDGs through ESD
4. Publication of articles in RCE Bulletin and journals
5. Strategies on how to involve the youths and adults alike in RCE activities
6. Revised action plan for African RCEs
