

The Okayama ESD Project

Making a sustainable society through diverse networks

Okayama City

wealthy natural
environment

in harmony with nature

many activities to protect the
rich environment.

many citizen activities connected to intercultural exchange, international cooperation and lifelong learning

the Okayama ESD Project Began in 2005

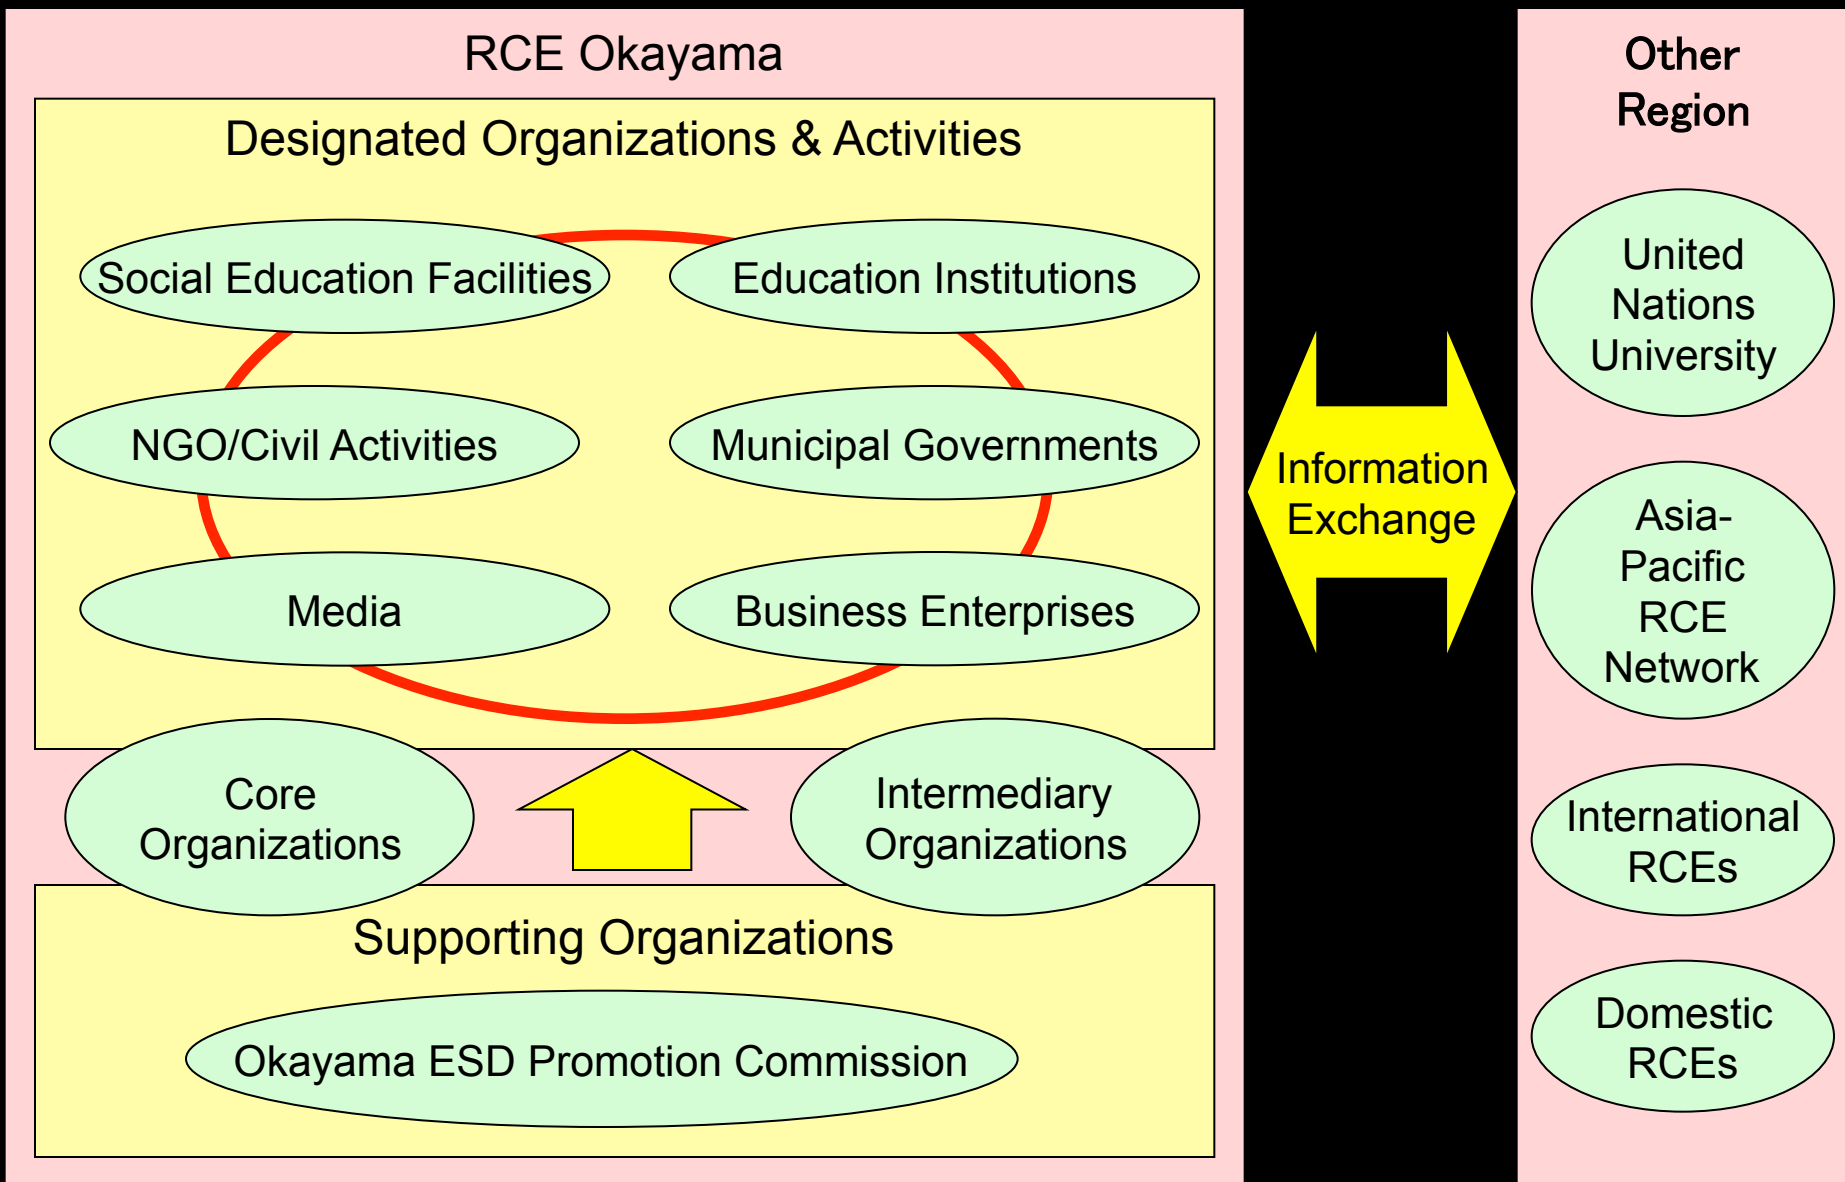

In June 2005, the United
Nations University certificated
Okayama
as RCE

◆ The philosophy and purpose

1. promote ESD by taking advantage of Okayama's qualities
2. widen the scope of people who are involved
3. contribute to the promotion of the United Nations' "Decade of ESD."
